

## **DUST DISEASES TRIBUNAL OF NEW SOUTH WALES**

### **ADVICE TO PRACTITIONERS (No 1 of 2014)**

#### **CONSENT JUDGMENT LISTINGS**

Practitioners are advised that from Monday 17 February 2014 consent judgments will no longer be listed in the Judge's Directions List. From that date, where a **specific** request for the listing of a consent judgment has been made:

- The matter will be listed on a nominated Tuesday before the Registrar with a 'not before 10.30am' marking;
- On the list date, consent orders which have been signed by all relevant parties will be accepted by registry counter staff for filing;
- Unless urgent or otherwise requested, the Registrar will conduct a rolling consent judgment list in chambers from 10.30am; and
- Sealed copies will be available for collection from the Tribunal's registry thereafter.

Please note that the 'not before 10.30am' marking does not preclude practitioners from providing signed consent orders to counter staff prior to 10.30am.

Also please note that this advice relates only to those matters in which a **specific** listing has been requested and does not affect the filing of consent judgments over the counter at any other time.

Susan King  
Registrar
